

ELECTRONIC LOCKS

ESL SERIES

American Security has been a pioneer in the electronic lock market. The ESL SERIES locks offer unrivaled value in electronic safe access. The ESL10 and ESL20 locks have the best blend of features and function in Electronic Safe Locks. The ESL SERIES offer an attractive metal die-cast keypad housing with an alpha-numeric slanted keypad. The ESL10 is a basic keypad lock for home and office applications. The ESL20 offers advanced features necessary for commercial applications.

ESL10 FEATURES

- Replaces most mechanical combination locks. Easy installation and operation
- Factory Reset Combination for solving lost combinations without requiring expensive service calls
- Electronics are encapsulated within the lock and are sealed to prevent possible moisture related failures
- Cable fits through a ½" spindle hole without cutting and re-crimping connector
- Audible beep and flash from every keystroke gives maximum feedback to the user
- 15 minute Penalty Lockout after four incorrect entries protects against manipulation attempts
- New patented dead-latched lock design with an internal relock device for maximum security
- Lock "auto-locks" when boltwork is thrown to prevent safes from being left in a day lock position
- Slam Bolt version for locker applications
- UL type 1

ESL20 ADDITIONAL FEATURES

- Time Delay Mode: Delays can be set from 1 to 99 minutes
- Multiple User Mode: When enabled, one Master code and eight user codes are available with full supervisory control and code management
- Dual Control Mode: The lock can be programmed to require two combinations to open for added security
- Armored Car Override: When enabled, allows an armored car service to bypass Time Delay
